ORGANIZERS

TECHNICAL SPONSOR

SOICT 2023 is an international symposium covering significant research areas that include AI Foundations and Big Data, Network Communication and Security, Image and Natural Language Processing, Software Engineering and Digital Technology, Blockchain, and Operations Research trends. Following the past successful symposium SOICT 2022, which received submissions from 14 countries, the 12th International Symposium on Information and Communication Technology will be held in Ho Chi Minh City, Vietnam on 7-8 December 2023. The symposium aims to provide an academic forum for researchers and graduate students to share their latest research findings and identify future computer science challenges. The symposium will include tutorials and keynotes given by world-class speakers. SOICT 2023 proceedings will be published in the International Conference Proceedings Series by ACM as an ICPS volume in the ACM Digital Library (ISBN: 979-8-4007-0891-6), which will be archived in the ACM Digital Library. SOICT 2023 will be indexed by DBLP, Ei Compendex, Scopus and Clarivate Analytics Web of Science (ISI Web of Science). This year, the SOICT 2023 is organized by School of Information and Communication Technology – Hanoi University of Science and Technology, Hochiminh University of Science – Vietnam National University, Laboratory Informatics, Modelling and Optimisation System (LIMOS), The French National Centre for Scientific Research (CNRS). SOICT 2023 is organized in conjunction with The First French-Vietnamese Workshop on Operations Research and The Third Vietnam Operations Research Network Meeting (VORN 2023).

CONFERENCE SCOPE
Relevant topics of the symposium include, but are not limited to:

- Networking and Communication technologies
- AI Foundation and Big Data
- Multimedia Processing
- Software Engineering
- Operations research for Sustainable Urban Development
- Artificial Intelligence and Data Science for Smart Health and Medicine
- Human Computer Interaction and Intelligent Interactive Systems
- Recent Advances in Cyber Security
